Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claim 18 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

1. Claim 1 is objected to because of the following informalities: Applicant recites in line 8 ' which is protruded from a bottom surface of the base substrate", it is unclear as recited if applicant intends this phrase to pertain to the first fixing protrusion of the first fixing portion. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 18 is rejected under 35 U.S.C. 102(e) as being anticipated by Yoo et al (6,390,224).
4. Yoo discloses a lamp (inherent), an electrically conductive fixing member (301, 302) having a base substrate (310), a resilient clip protruded from an upper surface of

Art Unit: 2875

the base substrate so as to fix the lamp (330) and a fixing protrusion (420) integrally formed with the base substrate so as to prevent the lamp the lamp from moving in a longitudinal direction of the lamp (420, aids in preventing substrate 310 from moving in a longitudinal manner thus preventing the lamp from moving in a longitudinal manner) and a receiving receptacle(210) having a receiving space in which the fixing member and the lamp coupled to the fixing member are received.

Allowable Subject Matter

5. Claims 1-17,21-26 are allowed.
6. With regards to claim 1, claim 1 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.
7. Claims 19,20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
8. The following is a statement of reasons for the indication of allowable subject matter: The reasons can be found in the previous office action.
